EMOS®

A brand of legrand®

A Czech brand with a European reach

For 35 years, we have been providing high-quality electrical solutions for households and professional users. Reliability, innovation, and long-term partnerships are the foundation of our growth.

We are a stable European distributor of small electrical products. Our products are available in more than 30 countries, where we cooperate with leading retail and wholesale chains as well as specialized distributors. Thanks to our own testing and strong focus on quality, we deliver solutions that serve customers every day.

EMOS is a direct distributor for the Czech Republic, Slovakia, Hungary, Slovenia, Croatia, and Poland.

Direct representation in 5 countries. | Distribution representation across Europe and selected countries overseas. | A stable partner for the B2B segment.

The basic philosophy of EMOS

Optimal price/performance ratio

- our own specialists check the products before they leave the production plant
- our own laboratory and long-term testing ensure the stability and reliability of our product portfolio

Stock availability

- modern logistics center with an area of 16,000 m²
- most of our product range is permanently in stock
- fast delivery throughout Europe

Fast and easy communication

- direct representation in five countries
- local sales teams
- dedicated B2B sales portals

Part of the Legrand multinational group

Legrand is a global specialist in electrical and digital building infrastructure. It operates in more than 90 countries worldwide and employs 40,000 people. The group offers high value-added solutions for the commercial and residential segments and invests long-term in innovation and technological development.

Christmas LED Lights CONNECT SYSTEM

Light up any occasion! Whether it's decorating your home for Christmas or creating a magical atmosphere at weddings and parties. The connect lighting system offers endless decorating possibilities. The basic elements of the connect system STANDARD and PREMIUM are power supplies (A), extension cables (B) and lighting elements (C), which can be interconnected and combined with each other. This type of lighting is the ideal choice for spectacular outdoor decorations where conventional chain lengths are not sufficient.

Christmas and Decorative LED LIGHTS

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO – DROP – CLASSIC – CHERRY and TRADITIONAL. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

Christmas and Home LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

LED Lights

CONNECT SYSTEM

Light up any occasion! Whether it's decorating your home for Christmas or creating a magical atmosphere at weddings and parties. The connect lighting system offers endless decorating possibilities. The basic elements of the connect system STANDARD and PREMIUM are power supplies (A), extension cables (B) and lighting elements (C), which can be interconnected and combined with each other. This type of lighting is the ideal choice for spectacular outdoor decorations where conventional chain lengths are not sufficient.

EMOS®
A brand of legrand®

A + B + C

Connect System

Choose the right system for your lighting installation

The EMOS connectable system makes it easy to extend Christmas lighting according to the size of the space and the type of decoration. The **STANDARD system** is ideal for regular home installations, while the new **PREMIUM system** is designed for larger decorations with a higher number of LEDs.
The STANDARD and PREMIUM systems are not mutually compatible.

STANDARD CONNECT

A practical solution for regular Christmas decorations for houses, balconies, pergolas, trees and smaller outdoor displays.

- up to 800 LEDs per adapter
- suitable for regular home installations
- connectable lighting elements in a wide variety of types and shapes – chain, icicles, curtains, nets
- various light colors – warm and cool white, blue, green, red, purple and multicolor
- selected models feature a sparkle effect
- suitable for indoor and outdoor use
- seasonal use

PREMIUM CONNECT NEW

A new generation system for larger-scale lighting decorations, allowing you to connect up to 2,000 LEDs to a single adapter. Ideal for family homes, gardens, terraces, and smaller public spaces such as municipal offices or public greenery.

- up to 2,000 LEDs per adapter
- connectable basic shape elements – string lights and icicles
- three light colors – warm white, cool white, and a warm–cool white mix
- selected models feature a sparkle effect
- remote control with timer
- suitable for indoor and outdoor use
- year-round use with an extended 3-year warranty

The new PREMIUM Connect system cannot be connected to any older EMOS Connect system.

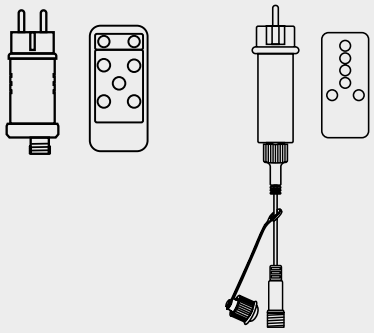
EMOS
A brand of legrand

How does the CONNECT SYSTEM work

Build your installation from individual components

A + B + C

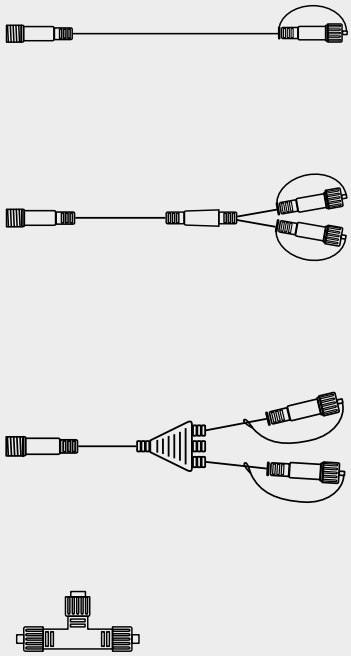
A Start
with adapter A



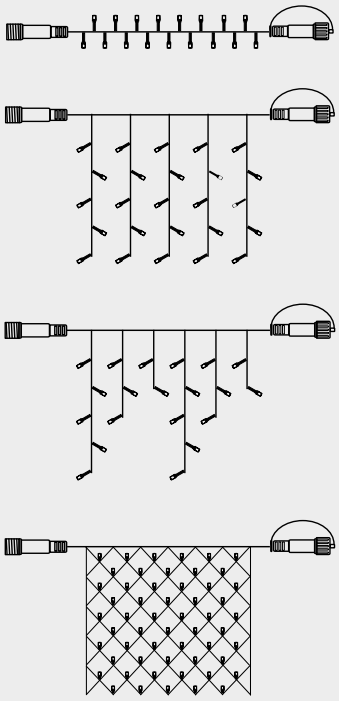
- The adapter powers the CONNECT system and enables reliable connection and convenient control of the lighting installation.

Watch the video

B Add
component B according to the type of installation

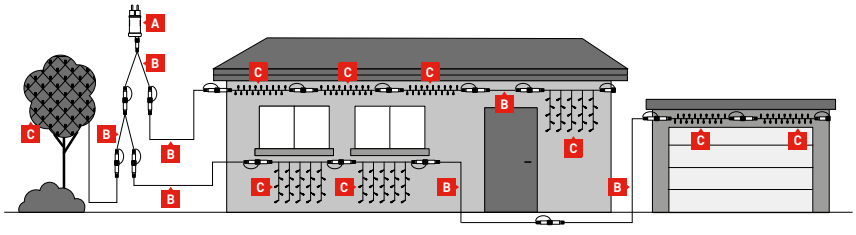


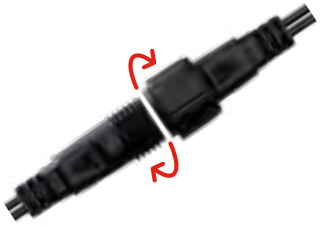
C Choose and connect
Lighting element C



- The lighting elements form the main part of the installation and are selected according to the chosen system, type of decoration and desired lighting effect.

Extend and branch your lighting...





...and let your imagination run wild

The Connect STANDARD system also offers ready made starter kits that include an adapter, an extension cable, and one light string. With the Connect PREMIUM system, you must always purchase the adapter, light string, and any additional cables or splitters separately.

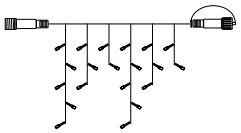
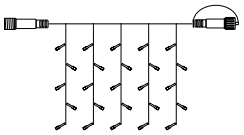
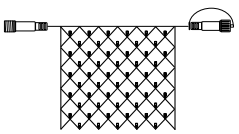
Chains (C) page 18



Icicles (C) page 24



Curtains (C) page 26



Nets (C) page 28

The STANDARD connect system is suitable for indoor and outdoor use thanks to its IP44 protection rating, but only in season, not all year round. The advantage of this connection system is the wide range of light elements (C) in several different colours. Although the most popular Christmas light is the chain, in the connecting system you can choose according to your own design preferences from icicles, curtains or nets. Up to 800 LED lights can be powered from a single power supply (A) connected to extension or splitter cables (B) and light elements (C).

Christmas and Decorative LED LIGHTS

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO – DROP – CLASSIC – CHERRY and TRADITIONAL. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

Christmas **NANO** chains are an elegant accessory that will surely become your reliable helper when creating Christmas arrangements and decorating your interior. Thanks to the fine, ultra-thin wire, the lights in the chain stand out beautifully and can be used to decorate various parts of your home, including the festive table. Copper wire can be bent however you like, so you can wrap the lights around an Advent wreath, your favorite figurines on a shelf, or even a Christmas tree. Stylish decoration and pleasant illumination is also provided by the chain when placed in a jar or lantern. The universal NANO lights are therefore the obvious choice for creating a cosy atmosphere at various festive occasions.

page 84

Lights are an essential part of any festive decoration, and the **Classic** series offers the perfect solution for creating a truly magical holiday atmosphere. Whether you use them indoors to brighten up your home or outdoors to decorate a bush or facade, the wide range of lengths, colors, and power options – **battery-operated or plug-in** – ensures you'll find exactly what you need.

Most string lights have 8 different lighting modes, so you can choose the right lighting effect for every occasion. They also come with a timer function – the lights turn on automatically at the time you select – so you don't have to worry about turning them on and off every day.

Christmas and Decorative LED Lights

CHERRY

Chains

Multifunctional

page 90

Big

page 94

Everyone will love the **Cherry** LED lights! Their white orbs perfectly decorate the Christmas tree and act as both lights and small decorations in one. The length of up to 48 metres allows you to stretch the chain between trees in the garden or along the perimeter of the terrace. Selected types of chains are offered with **8 to 64 light modes**, a remote control or an integrated timer, so that the chain will light up at regular intervals. For chains with **RGB function**, you can change the colour of the lights according to your own preferences.

LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

There are never enough decorations at Christmas. Almost all of us want to make it clear that we are looking forward to the Christmas holidays. That's why it's essential to decorate your windows with lit hanging decorations, such as paper stars or typical candle holders and lanterns, which create an elegant look and brighten up any room at the same time. You can also choose from advent calendars or light-up figurines that are sure to delight children. Most of the interior decorations are battery-powered, so you don't have to worry about obstructing cables so nothing gets in the way of a perfect decorating experience.

With outdoor decorations, you will provide a fabulous spectacle not only for the neighbours, but also for passers-by. For garden owners, we offer light-up characters and animals that will be especially appreciated by the little ones. For a more subtle decoration, you can use a wide selection of pinnable garden decorations or hanging garlands in the form of stalactites and party bulbs. On the other hand, for those who want to be unmissable, we recommend projectors for lighting the whole house. All decorations come with a 3, 4 or 5 m long power cord, so you can turn on your light decorations conveniently from your garage or house.
